U. S. DEPT. OF AGRICULTURE

February 4, 1966

Sales: Olson's district leads in the sales column for the week followed by Jorgensen's and Markel's districts.

The combination of new sales and reinstatements has resulted in a gain of more than 12,000 net acres. Even though we are making progress, the pace is not fast enough. To realize our quota we will need at least 50,000 net acres each of the remaining weeks of the sales period.

It has been noted that 23 of our 52 counties have not reported a sale for two weeks and 14 of these counties have not shown a sale for three weeks. Are you responsible for one of these counties?

All but one county made their reports; let's make it 100% next week. We also have one county in the state which has not made a 1966 crop sale. It is expected that some sales results in this county will be reported in the very near future.

Accounts: Statements of Account have now been sent to the ASCS State Office which will distribute the accounts to the respective county offices. We regret that these accounts were not reconciled and sent out earlier, but a few of our county offices did not complete their reconciliation until this week and thus delayed all others.

Thought for the Week: To waste time is to waste life itself.

AB Schonberger

AUG 9 - 1966

1966 Edition No. 6

U. S. DEPT. OF AGRICULTURE

February 4, 1966

Sales: This week the combination of new sales and reinstatements has resulted in a gain of only 10,489 net acres which is 2,000 acres less than we gained last week. Surely, this isn't the best that could have been done.

Piehl's district led in the sales column for the week followed by Jorgensen's and Olson's districts.

We have five counties which have replaced their cancellations and are now increasing business. These counties are Dunn, Mountrail, Slope, Towner, and Williams. Our congratulations to the people responsible for FCIC work in these counties.

It has been noted that the 20 counties operated directly by the Corporation have accounted for 50% of the total crops sold to date and 59% of the total net acres to date. Does this mean something?

Misc.: A number of people have asked when the annual procedure meeting will be held. Area Director E. W. Anderson has informed this office that it has been tentatively scheduled for May 4 & 5. You will be receiving more detailed information in the near future.

Thought for the Week: When words fail, try a few new ideas.

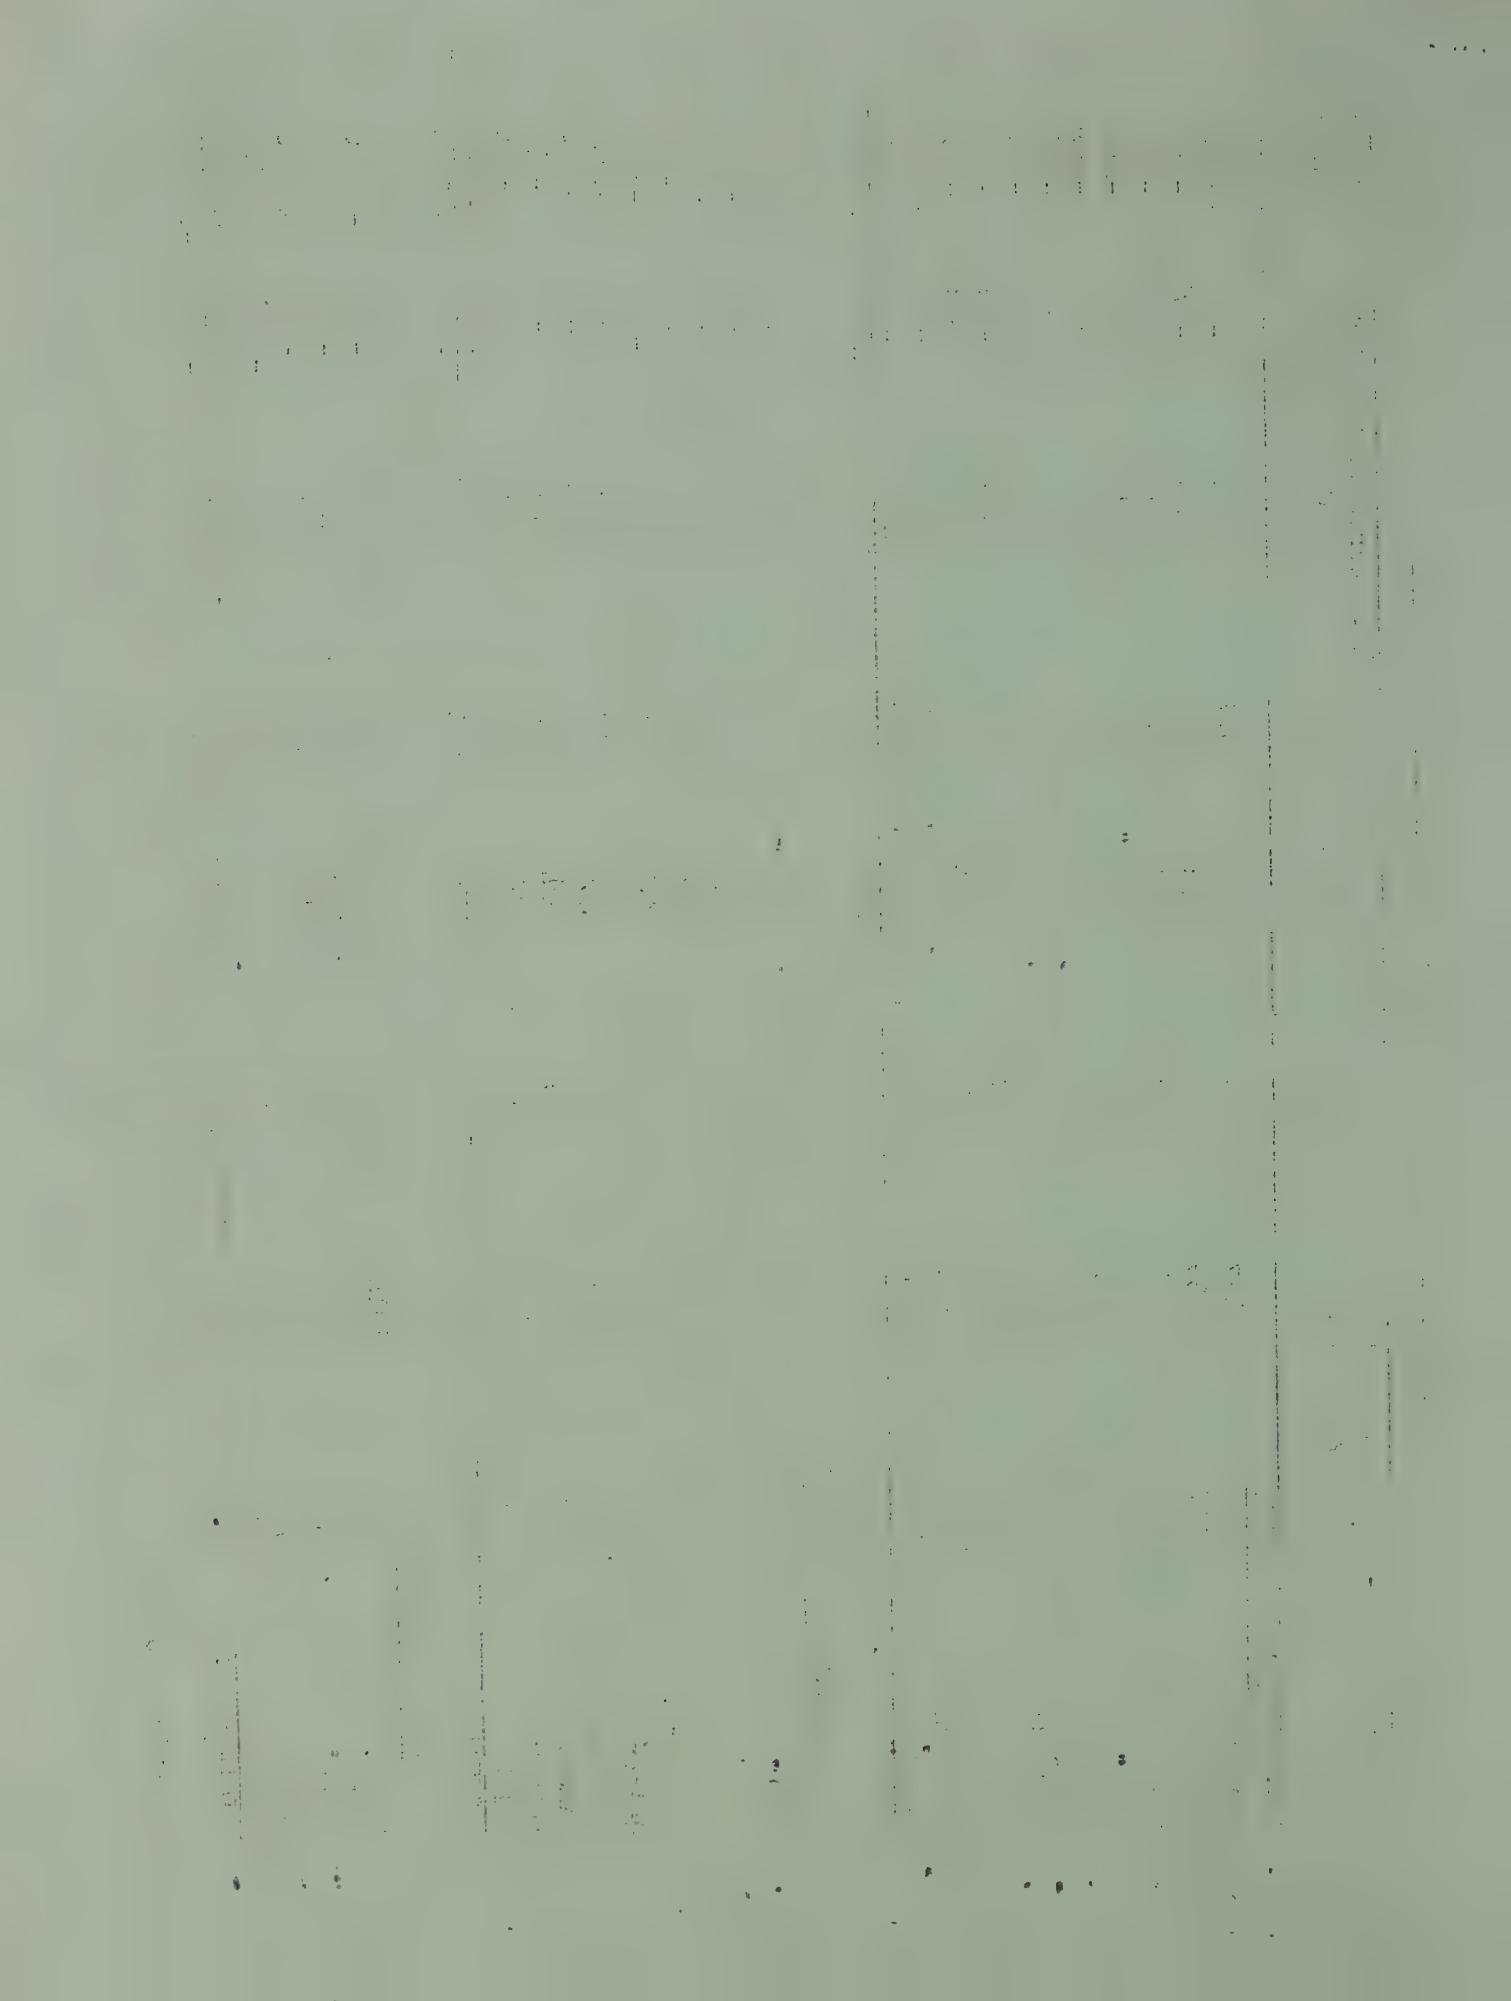

H G Schonberger

February 18, 1966

Sales -- We gained about 13,000 acres this week. More than a week ago, but way short of what is needed to make the increase we must show at the end of the sales campaign. Jorgensen's District led in sales and acres for this week. Piehl's District was second in sales while Olson's was second in acres. Divide and Mercer counties are now in the plus group.

Code Numbers -- Corporation employees that have been assigned numbers must show them to the left of their names on Forms 12 or 812A that they have prepared or witnessed.

Acres and Premiums -- Please be sure to show the acres and premiums on Forms 12 and 812A as provided for in recent releases.

AUG 9 - 1966

1966 Edition No. 8

U. S. DEPT. OF AGRICULTURE

February 25, 1966

Sales - Our gain this week is about 15,000 acres. Jorgensen's District was the leader again in both crops sold and acres. Piehl's District was in second place.

Stark County has moved into the plus column.

Accounts - Work your collections in with sales contacts. Save every crop you can by collecting the premium by March 31.

Clean Sweep - If you have not reported on the disposal of records or forms, please do so immediately. We must report the results next week.

Acres and Premiums - Please follow the procedure for showing on applications and 812 A's. We have had to make some of the entries more legible and in accordance with the procedure.

H.B.S.
